

THE MSC NAPOLI

Response Information Day

12th JULY 2007

**Council Chamber, Devon County Council,
Topsham Road, Exeter, Devon, EX2 4QD**

The EROCIPS Project is hosting an information day following the grounding of the MSC Napoli in Lyme Bay in January 2007. The day will present the experiences of some of the agencies and people directly involved in the response.

The aim of the day is to bring together responders from Devon, Dorset and members of organisations across the South West, so that the experience gained so far from the Napoli incident can be put to good practice across the region and help to strengthen existing contingency plans for maritime pollution incidents.

The event will run from 08.45 to 15.45 and will be free of charge to attend. However, there are only 80 places available and these will be allocated on a first come first serve basis.

If you would like to attend this seminar please contact :
